

UV-C MICROBE INACTIVATOR

LED Ultraviolet Microorganism Inactivation Wand
Model: SLP 25.6.150

Features:

- Patented Design
- Inactivates Virus 4 sec
- Irritation level 1"
- Beeping sensor switch
- Ergonomic Handle
- Premium UV-C LEDs
- Aluminum extrusion
- High impact lenses
- Expandable design
- Safety gravity switch
- Industrial strength
- USB - Power input

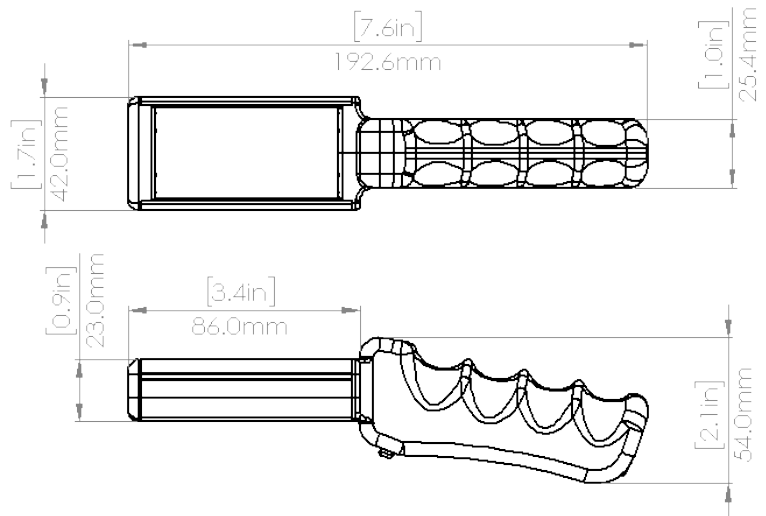

25 UV-C LED Inactivation Wand

Caution: UV-C energy. Must where required safety equipment.

Specifications:

- Wave frequency 275 -280 nM
- Wattage 6w power
- Energy output 150 mW
- $150\text{mW}\cdot\text{s}=0.150\text{J}$
- 120° degree distribution
- Voltage: 5V USB.
- Materials:
 - Housing: Aluminum Extrusion
 - Handel: Plastic, ABS
 - Lenses: Cristal Glass

Part No.256125 - 25 - 6 - 150 - 4 J
